## PROFILE

Criminal Legal News ("CLN"), a project of the nonprofit Human Rights Defense Center ("HRDC"), is a monthly magazine that reports on criminal justice issues and related civil litigation topics.

CLN focuses on individuals' constitutional rights as they relate to interactions with the criminal justice system and the persistent expansion of the police state in America. In addition, CLN provides case summaries of the latest state and federal appellate court decisions of importance for anyone with an interest in the most recent developments in substantive criminal law and criminal procedure.
